Homer M. Lect-recalled .- I found a small Monday, by heavy majorities: vial with a whitish powder in it, after my eturn bome about the I2th September . I howed it to my daughter; she munifested no surprise about it; I laid it away in my tin, Chas. Messenger, bed room; I afterward came across it and put it into the are; it must have been within a week after my return: I laid it up noon the partition in my room; the walls were ceiled up almost to the floor above; it was not where any person could see it or find it, unless they knew where it was; it was a Butt-rheld, J. Williams. to Miss Shunnon; I understood it was the same as was to ber smelling bottle; I considered it some medicine or poison; I was not quainted with strychnine particularly; the Boster never informed me that I was taking poison; I never had it intimated till after my daughter's death.

Cross Examination -I found the vial over said what it was; I do not know but I interceded with the Dr. Moores to influence week. Rollin not to go to Mr. Shannon's, after I was up at my brother's; I never used any strychnine about the house; I never knew

Lourse Leet recalled.—I think Eisis got the bottle out of the buttery, at the time she took the buttery, and the time she took the buttery seed died. Fer her asked her if she would not take some. She said she withink and ahe went into the buttery, and take the time of the buttery or at the table. Particle out in billions for Eisis to take. She took the spoon into her own hand and took it down. There was some left and Patook that.

Prosecution resumed.

John Truesdate.—There is another John Truesdate in Vienna,—small boy. I never made any contract with William Barthelomew about getting strychnine. Barthelomew spoke to me about taking some after it was got. I should think it was about the middle of Angust. Our folks went nearly visiting about the first of Angust and it was two weeks or more after they were gone.—William spoke to me on Sanday morning. I think as we were going up towards the centre. I saw hollin Leet have some after thing about the Task as the first I ever kine anything about the scaling of the bottle. I never talked of sending to pet some at Warren.

D.D. Belden.—I was present in Vienna at the examination before the majourate. At that trial Albert Woodford said he had a talk that evening with Rollin bebind the door, and Robin asked him if he had ever seep him (Rollin) have more than one bottle of strych fine.

Cross Examination.—My notes do not differ from Squire Booth's statement of Mrs. Tutle's ustimony ex-cept as to the word strychnine. In her test mony then she said Rollin "said it was a rank poison—strych-

(3.5 Mr. Santh was handing over the bottles for in-spection, the cork of one of them fell out with the seal specifies, the core of one of them fell out with the sent attached and the strychnine was spilled upon the lands of the parsons boding it. The readiness with which a dry corted vial could be opened was thus singularly demonstrated. The incident evidently made a great impression upon the Jury and the spectators, and though not regittmate testimony, doubtless went fur-towards overcoming the positive assertion of the young-men who testified that the bottle had not been opened when they saw it.)

Ballium Bartheloners.—I talked with John Trues

cannot sell what Sanday is was. I don't snow whether
a card stating that the money drawn out cannot sell what Sanday it was. I don't anow shother it was Sanday when I got the bottle. I did not know of its being handed over to Rollin till afterward.

Cross Erassination.—I think the Sanday I spoke to Truesdale was since the Vienna trial. I think it was not on the Sanday I got it that I spoke to him about it. We were going to singing school on the night I spoke to him about it. I only talked to him twice about tronce since the trial and once before. I don't know whether Rollin was at the centre the night when I had whether Rollin was at the courre the night when I had the conversation with Trundale.

Rollin was at the centre when I gave it to him. I think we went to church that day. I do not recollect whether I gave it to him before or after church. I did not have it in church. I must have given it to him before fore church.

SELLER'S COUGH SYRUP, "WITHOUT A RIVAL."

Privarian, (5th Ward.) Feb. 25, 1850.

Mr. R. E. Sellers:—On the 18th ult., I caught a very severe cold. The night following, I went to bed carlier than usual; yet, notwithstanding, I had sleep none the night before, my cough was so severe that 'I could not sleep, neither could those in the room with me. The person sleeping with me was so much annoyed by my coughing, that he got up and went to a drug store and bought a bottle of your Cough Syrup, one dose of which, to my great astonishment, stopped my cough as if up magic. I went to work in the morning, and am now quite well.

Having had some opportunity to become acquainted with the present Principal and assistant in the Young Short Dialogue On Plows 1st Farmer.—Neighbor, what Plow do you use I 2nd Farmer.—Well, I have J. Long's No. 4. and loveral other kinds, but Morley's Star Flow heats there all.

Ist Farmer.—I must go to Warren and get a Star Plow. (Goes to Warren and returns in course of the lay.)

2nd Farmer.—Hallo, Neighbor, what have you got there?

1st Farmer.—One of Morley's Double Plows. He says to beats the Star Plow, and no mistake.

2nd Farmer.—One of Morley's Double Plows. He says to beats the Star Plow, and no mistake.

2nd Farmer.—Can't be possible? but I it does, I will have gone. (Exit both Farmers, and trep the Plows.)

The Double Plow proves to be the best; in fact is does better work than any single Plow can do. This we guarted. A great of the common of the highest order.

A SHORT DIALOGUE ON PLOWS.

Having had some opportunity to become acquainted with the present Principal and assistant in the Young tables. Seminary of Hudson, and their successful labors to commencing and conducting it thus far, we take pleasure in confidently recommending the Institution for young ladies in a superior degree, and congranulate the people of Hudson and the vicinity upon the establishment of such a Seminary under so happy ampices. We are happy to know that it is institution the means and facilities of an education of the highest order.
